NOW ON YOUTUBE: EQUINE AFFAIRE 2010 STIFLE REHAB DEMONSTRATION

Jennifer Brooks, Equine PT, CERP, was invited to present her Stifle Rehabilitation Program at **Equine Affaire last fall 2010**. She has been asked to present this program at the upcoming **American Assoc. Equine Practitioners Conference in San Antonio this November 2011**.

Take a look through these videos to get an understanding of what physical therapy can do to provide rehabilitation of stifle dysfunction and help your horse overcome stifle problems.

Get Your Horse Ready For Spring!!!

If your horse has been diagnosed with upward fixation of the patella, or "stifle weakness" or problems, **this clinic is for you on April 16th at the Covered Bridge Farm, Brookline, NH**. Bring your horse for consultation and treatment. Auditing and participation slots are filling up fast, so please call 603-566-6561 or email jenequintpt@charter.net to reserve your spot. Refer to equinerehabservices.com/events.htm for more information.

Upcoming Clinic: May 14th What Can Physical Therapy Do For My Horse's Problem?

Many undiagnosed or vague lamenesses can arise from muscle imbalances, soft tissue restrictions, or postural asymmetries. These are often

hard to identify with the typical diagnostic tests. If you are having problems with your horse consider giving Equine PT an opportunity to help your horse's condition. This is your opportunity for a rehab consultation. Jennifer will be presenting a clinic to support ***Live and Let Live Farm***, horse and animal rescue facility, in Chichester, NH on ***Saturday, May 14th***. Please contact **jenequinept@charter.net** for information or to sign up for lecture and a clinic slot. For more information about Live and Let Live Rescue Farm click on **liveandletlivefarm.org**.
